CONSENT AND RELEASE AGREEMENT FOR PERMANENT COSMETICS

This form is designed to give information needed to make an informed choice of whether or not to undergo permanent cosmetics application.

If you have any questions, please do not hesitate to ask.

Although permanent cosmetic tattooing is effective in most cases, no guarantee can be made that a specific client will benefit from the procedure.

This is the process of inserting pigment into the dermal layer of skin and is a form of tattooing.

All instruments that enter the skin or come in contact with body fluids are sealed and sterilized before use and disposed of after use.

Cross contamination guidelines are strictly adhered to. Generally, the results are excellent. However, a perfect result is not a realistic expectation. It is usual to expect a touch-up after the healing is completed.

Initially the color will appear much more vibrant or darker compared to the end result. Usually within 57 days the color will fade 10 – 50%, soften and look more natural. The pigment is permanent, but will fade somewhat over time and will likely need to be touch-up through the years.
